

Release Notes: ocrpro.ai v1.3.2

Introduction

We are excited to announce the release of **ocrpro.ai v1.3.2**, a minor update focused on **enhancing the OCR Editor, introducing annotation functionality, and improving document uploads**. This update brings greater flexibility to document processing, making it more accurate and efficient.

Key Updates in v1.3.2

1. OCR Editor Enhancements

- **Bug Fixes & Performance Improvements:** Addressed various issues to ensure a smoother editing experience.
 - **New Font Options:** Added additional fonts for better text customization.
 - **Undo/Redo Feature:** Users can now revert or reapply changes effortlessly while editing documents.
-

2. Advanced Annotation in Model

- **New Annotation Feature:**
 - Users can now **add field values by directly annotating** from the actual document.
 - While reviewing a document on the right-hand side, users can quickly **mark and extract fields**, improving accuracy and efficiency.
-

3. Gmail Attachment Upload Support

- **Seamless Gmail Integration:**
 - Users can now upload documents directly **from Gmail attachments**.
 - This feature streamlines document processing by allowing faster imports from emails.
-

Performance Highlights

- Optimized the OCR Editor for faster response times and more precise text rendering.
 - Improved document annotation workflow for better accuracy.
 - Added support for Gmail attachment uploads, reducing manual file transfers.
-

How to Get Started with v1.3.2

1. **Log in** to your account at ocrpro.ai.
 2. **Upload Documents** directly, via email, or now from **Gmail attachments**.
 3. **Edit Documents** with the improved OCR Editor, including undo/redo and new font options.
 4. **Annotate Fields** by marking values directly from the document in the review section.
 5. **Export Data** seamlessly in JSON or CSV format.
-

Known Limitations

- **Gmail attachment support** currently works with common file types (PDF, PNG, JPEG, JPG, WEBP). Additional format support is in development.
 - **Annotation tracking** is currently limited to the review document screen; future updates will expand its functionality.
-

What's Next?

Upcoming features include:

- **Expanded Gmail integration**, allowing bulk attachment processing.
 - **Advanced annotation tools** for even more precise field detection.
 - **Improved document collaboration**, enabling multiple users to review and edit documents together.
 - **Mobile optimization** for easier document processing on the go.
-

Thank you for choosing **ocrpro.ai**! We are committed to delivering the best document processing experience. Stay tuned for more updates, and feel free to share your feedback!
